

Our tournaments

Spain is the most appropriate host with regard to international sports tournaments. In addition to the most perfect whole-year climate, the Spaniards have rich traditions within most sports – and a corresponding number of results, championships and trophies. Therefore, some of the best teams in the world sign up for tournaments in Spain.

We represent a number of Spanish tournaments, especially within football and volleyball (please find more info on the two following pages), while others are added. Also, together with experienced partners, we can arrange for tailormade tournaments with the participation of some of the prominent Spanish clubs.

In addition, we offer special programmes for 'Families & Fans' – please take a closer look at page 15
