

Healthy Costa Blanca

Sólorka lives by the Altea-bay, designated by World Health Organization, WHO, as one of the healthiest spots on Earth. Every morning, our guests are feeling this after waking up after a good night's sleep.

The bay takes its name from the beautiful old town of Altea, originally Althaia which in both Greek and Arabic refers to the process of healing. Ancient ruins show us that the Romans had wellness studios here already 2000 years ago.

In this magnificent area we have our resort and our wide range of first-class facilities.
